

Appendix B.
Non-modeling Assumptions for the Affected Environment.

1. Water Conservation - Assume system-wide water conservation levels outlined in DWR Bulletin 160-93.
2. CVP and SWP Operations - Assume continued operation pursuant to the 1992 CVP operating criteria and procedures and current SWP operation Criteria.
3. Land Retirement - Assume existing agricultural acreage.
4. Water Contract Rate Setting - Assume existing rate-setting policies
5. Groundwater Regulations - Assume existing groundwater regulations.
6. Power Production - Assume that power is produced incidental to other operations.
7. Endangered Species Listing - Assume current listed species.
8. Flood Control - Assume existing flood control policies.
